Lorries PL27-4521 uchylna...

kg and own weight is 743 kg.

The twin-axle construction is based on a welded, hot-dip galvanized steel. Important build elements include floor: aluminium Lohr sheet, tyres: 195R10C.

The twin-axle setup improves stability and load distribution during transport.

If you are interested in twin-axle car transporter Lorries PL27-4521 uchylna full LED, check the technical details and contact Witmar about availability and pricing.
