Niewiadow Jupiter Light 4...

kg and own weight is 600 kg.

The twin-axle construction is based on a welded, hot-dip galvanized steel. Important build elements include floor: steel Lohr sheet, tyres: 195R13C.

The twin-axle setup improves stability and load distribution during transport.

If you are interested in twin-axle car transporter Niewiadow Jupiter Light 4.5, check the technical details and contact Witmar about availability and pricing.
