Niewiadow Atlas 4.0 - hea...

own weight is 670 kg.

The twin-axle construction is based on a welded, hot-dip galvanized steel. Important build elements include floor: 15 mm plywood, tyres: 195R13C.

The twin-axle setup improves stability and load distribution during transport.

If you are interested in heavy duty twin-axle trailer Niewiadow Atlas 4.0, check the technical details and contact Witmar about availability and pricing.
