Lorries MT-2 - motorcycle...

kg and own weight is 250 kg.

The twin-axle construction is based on a welded, hot-dip galvanized steel, powder-coated black. Important build elements include floor: chequered aluminium sheet, tyres: 13.

The twin-axle setup improves stability and load distribution during transport.

If you are interested in motorcycle / quad trailer Lorries MT-2, check the technical details and contact Witmar about availability and pricing.
